AETW 2016 Program Day 1: Monash University, Caulfield Campus

	Thursday 11 th of	February 2016
8:30 - 9:00	Registration –	Building N Foyer
9:00 - 9:15		1onash Business School) - Room: N108
		sion 1
0.45 40.45	Room: N108 Session Chair: Thiun Chen (Menach)	
9:15 - 10:45	Session Chair: Zhijun Chen (Monash)	
9:15 - 10:00	Simon Grant (ANU) Costly Self-Control and Limited Willpower	
9.13 - 10.00	John Wooders (UTS)	
10:00 - 10:45	Dissolving a Partnership Dynamically	
10.00 10.13	Dissolving a randicistip Dynamically	
40.45	Maurine Tee Breedy Building N.S.	
10:45 - 11:15	Morning Tea Break: Building N Foyer	
	Session 2A: Market & Institutions Room: N108	Session 2B: Decision & Information Room: N103
	Hongyi Li (UNSW)	Addison Pan (Massey U) Collective Deliberation Under Non-common Prior:
	Continuous versus Episodic Reorganizations	Theory and Experimentation
11:15 - 12:45	Bilgehan Karabay (RMIT)	Patrick O'Callaghan (UQ)
11.13 12.13	The Theory of Intra-Industry Vertical FDI	Measuring utility without mixing apples and
	Filtra Advanced (company)	oranges and eliciting beliefs about stock prices
	Filippo Massari (UNSW) Price probabilities	Anton Kolotilin (UNSW) Timing information flows
	rrice probabilities	Tilling information nows
12:45 – 13:45	Lunch Break: Building N Foyer	
	Session 3A: IO 1	Session 3B: Behavioural Economics
	Room: N108	Room: N103
		11001111 11200
		1001111 11200
	Martin Byford (RMIT)	Vera te Velde (uq)
	Martin Byford (RMIT) Ex-Post Price Stability with Convex Costs	
12,45 45,45	Ex-Post Price Stability with Convex Costs	Vera te Velde (UQ) Surprising gifts
13:45 – 15:15	Ex-Post Price Stability with Convex Costs Clemence Christin (Caen-Normandie U, CREM)	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin)
13:45 – 15:15	Ex-Post Price Stability with Convex Costs	Vera te Velde (UQ) Surprising gifts
13:45 – 15:15	Ex-Post Price Stability with Convex Costs Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney)	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ)
13:45 – 15:15	Ex-Post Price Stability with Convex Costs Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion?
13:45 – 15:15	Ex-Post Price Stability with Convex Costs Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney)	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ)
	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle
13:45 - 15:15 15:15 - 15:45	Ex-Post Price Stability with Convex Costs Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer
	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle
	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103
	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108 Peyman Khezr (UQ)	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103 Jim Hancock (ANU)
	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103
	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108 Peyman Khezr (UQ) Auctions with an asking price David Delacretaz (U Melb)	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103 Jim Hancock (ANU) Optimal Federal Transfers Under Decentralised Regional Production Decisions Munirul Nabin (Deakin)
15:15 – 15:45	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108 Peyman Khezr (UQ) Auctions with an asking price	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103 Jim Hancock (ANU) Optimal Federal Transfers Under Decentralised Regional Production Decisions Munirul Nabin (Deakin) Foreign Aid and Political Platform
15:15 – 15:45	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108 Peyman Khezr (UQ) Auctions with an asking price David Delacretaz (U Melb) Matching with Quantity	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103 Jim Hancock (ANU) Optimal Federal Transfers Under Decentralised Regional Production Decisions Munirul Nabin (Deakin) Foreign Aid and Political Platform Polarization
15:15 – 15:45	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108 Peyman Khezr (UQ) Auctions with an asking price David Delacretaz (U Melb)	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103 Jim Hancock (ANU) Optimal Federal Transfers Under Decentralised Regional Production Decisions Munirul Nabin (Deakin) Foreign Aid and Political Platform
15:15 – 15:45	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108 Peyman Khezr (UQ) Auctions with an asking price David Delacretaz (U Melb) Matching with Quantity Juan Carolos Carbajal (UNSW)	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103 Jim Hancock (ANU) Optimal Federal Transfers Under Decentralised Regional Production Decisions Munirul Nabin (Deakin) Foreign Aid and Political Platform Polarization Anthony Rossitier (Monash)
15:15 – 15:45	Clemence Christin (Caen-Normandie U, CREM) New Product Introduction and Slotting Fees Nicolas de Roos (U Sydney) Collusion with limited product comparability Afternoon Tea Session 4A: Auction & Market Design Room: N108 Peyman Khezr (UQ) Auctions with an asking price David Delacretaz (U Melb) Matching with Quantity Juan Carolos Carbajal (UNSW) Market Design with Repugnance Constraints	Vera te Velde (UQ) Surprising gifts Zhansulu Baikenova (Deakin) Preference for improvement: negative discount rate or dynamic loss aversion? Hammad Siddiqi (UQ) Anchoring Heuristic and the Equity Premium Puzzle : Building N Foyer Session 4B: Policy & Politics Room: N103 Jim Hancock (ANU) Optimal Federal Transfers Under Decentralised Regional Production Decisions Munirul Nabin (Deakin) Foreign Aid and Political Platform Polarization Anthony Rossitier (Monash) Designing biosecurity inspection regimes to account

AETW 2016 (Preliminary) Program Day 2: Monash University, Caulfield Campus

	Friday 12 th of Fel	bruary 2016
8:45 - 9:15		on – Building N Foyer
		sion 1
9:15 - 10:45	Room: N108 Session Chair: Matthew Leister (Monash)	
J.13 10. 4 3	Nick Feltovich (Monash)	
9:15 - 10:00	Market institutions, efficiency and prices	
10:00 – 10:45	Nejat Anbarci (Deakin)	
	Endogenous Continuation in Bargaining and the Nash Solution	
10:45 - 11:15	Morning Tea Break: Building N Foyer	
	Session 2A: Game Theory Room: Room: N108	Session 2B: Communication & Information Room: N103
	Jun Xiao (U Melb) Whether to Hire a Superstar?	Heng Chen (U Hong Kong) The Market for Attention
11:15 – 12:45	Jun Zhang (UTS) Optimal Contest Design with Incomplete Information	Jose Rodriques-Neto (ANU) Social Status, Reputation, Financing, and Commitment
	Simona Fabrizi (Massey U) Attack, defense, and the market for protection	Matthew Ryan (Auckland U Tech) A Stochastic Implicit Expected Utility Theorem
12:45 – 13:45	Lunch Break: Building N Foyer	
		<u> </u>
	Session 3A: IO 2 Room: N108	Session 3B: Networks Room: N103
		Session 3B: Networks
13:45 – 15:15	Room: N108 Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide)
13:45 – 15:15	Room: N108 Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin)	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with
	Room: N108 Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin) Exclusion in Oligopolistic Markets Zhijun Chen (Monash) A theory of conglomerate mergers	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with Unknown Networks Matthew Leister (Monash) Information Acquisition and Response in Peer-effects Networks
13:45 – 15:15 15:15 – 15:45	Room: N108 Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin) Exclusion in Oligopolistic Markets Zhijun Chen (Monash) A theory of conglomerate mergers Afternoon Tea:	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with Unknown Networks Matthew Leister (Monash) Information Acquisition and Response in Peer-effects Networks Building N Foyer
	Room: N108 Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin) Exclusion in Oligopolistic Markets Zhijun Chen (Monash) A theory of conglomerate mergers	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with Unknown Networks Matthew Leister (Monash) Information Acquisition and Response in Peer-effects Networks
	Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin) Exclusion in Oligopolistic Markets Zhijun Chen (Monash) A theory of conglomerate mergers Afternoon Tea: Session 4A: Trading Mechanisms	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with Unknown Networks Matthew Leister (Monash) Information Acquisition and Response in Peer-effects Networks Building N Foyer Session 4B: IO & Labor
	Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin) Exclusion in Oligopolistic Markets Zhijun Chen (Monash) A theory of conglomerate mergers Afternoon Tea: Session 4A: Trading Mechanisms Room: N108 Cedric Wasser (U Bonn)	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with Unknown Networks Matthew Leister (Monash) Information Acquisition and Response in Peer-effects Networks Building N Foyer Session 4B: IO & Labor Room: N103 Guillem Roig (U Melb)
15:15 – 15:45	Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin) Exclusion in Oligopolistic Markets Zhijun Chen (Monash) A theory of conglomerate mergers Afternoon Tea: Session 4A: Trading Mechanisms Room: N108 Cedric Wasser (U Bonn) Revenue Maximizing Head Starts in Contests Francesco Carli (Deakin)	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with Unknown Networks Matthew Leister (Monash) Information Acquisition and Response in Peer-effects Networks Building N Foyer Session 4B: IO & Labor Room: N103 Guillem Roig (U Melb) Research Paths, Strategic Information Disclosure & Exit Edwin Ip (U Melb)
15:15 – 15:45	Emil Temnyalov (UTS) Frequent flyer programs and dynamic contracting with limited commitment Suren Basov (Deakin) Exclusion in Oligopolistic Markets Zhijun Chen (Monash) A theory of conglomerate mergers Afternoon Tea: Session 4A: Trading Mechanisms Room: N108 Cedric Wasser (U Bonn) Revenue Maximizing Head Starts in Contests Francesco Carli (Deakin) Clearing, Transparency, and Collateral Simon Loertscher (U Melb) Bayesian Optimal Mechanisms for Club Goods	Session 3B: Networks Room: N103 Robert Garrard (U Adelaide) Stochastic Dominance in Social Networks Hon Ho Kwok (U Hong Kong) Identification Methods for Social Interaction Models with Unknown Networks Matthew Leister (Monash) Information Acquisition and Response in Peer-effects Networks Building N Foyer Session 4B: IO & Labor Room: N103 Guillem Roig (U Melb) Research Paths, Strategic Information Disclosure & Exit Edwin Ip (U Melb) Information Goods with Costly Sharing Pai Xu (U Hong Kong)
